Facing new challenges

WELCOME MESSAGE

The Egyptian Pediatric Dentistry Association (EPDA) had the pleasure of organizing its 4th International meeting back in 2018 when we hosted both the Arab and Mediterranean Societies of Pediatric Dentistry. Ever since, the world has gone through many challenges that prevented interaction and scientific gatherings.

However, this year we decided to take the challenge and organize our 5th International meeting and once again hosting the Arab and Mediterranean Societies of Pediatric Dentistry to bring things back to normal and bringing people from all over the world and meeting face to face.

The theme of the meeting is "Facing new challenges" which reflects the importance of acknowledging the changing patterns of life that will be reflected on our professional practice in the near future.

Here in Alexandria, Egypt we welcome participants from all over the world to come and share with us their knowledge and experience.
